

CircleBath Directory of Consultants

Issue 1 2011

Why Refer Your Patient to CircleBath Hospital?

- 99.5% of patients surveyed would recommend CircleBath to their family and friends
- We publish “raw” patient feedback data on our website
- Our consultants have substantive local NHS contracts
- We can treat patients with significant co-morbidity. For further clarification please contact our Anaesthetic Assessment Nurse direct on 01761 422226
- We can treat patients who require more technically complex surgery
- We routinely send QOF data gathered at CircleBath
- We collect PROMs data on all patients undergoing procedures and will soon publish the first six months results on our website

Clinical Excellence

Our founding ethos is that clinicians are best placed to decide how to achieve the best care for their patients. Because our credo commits us to being 'above all else the agents of our patients', all decisions in Circle are based on what's best for our patients, rather than financial or operational concerns. We are committed to providing clinical excellence. We have over 120 experienced consultants who are leaders in their specialist fields, working as partners. By bringing together excellent clinical leadership and empowering our doctors and nurses, we have created an environment at CircleBath where your patient can be sure of the best possible care.

We are passionate about the caring side of healthcare delivery, the way in which patients are treated with compassion and kindness, in addition to the highest clinical standards of technical excellence and patient safety.

The Best Patient Experience

Our founding belief at Circle is that by combining clinical excellence, the best doctors, nurses and medical care with a superb patient experience, a calming environment and 5 star hospitality, your patient will be more relaxed and so recover faster. We know your most important concern is the recognised ability of our consultants and the quality of care your patient individually receives.

All our consultants, nurses and everyone who works here are co-owners and partners in Circle, so they are able to make decisions based on patient needs without any bureaucracy and needless paperwork standing in their way. By bringing together excellent clinical leadership and empowering our partners, we have created a unique environment at CircleBath where you can be sure of the best possible care for your patient, delivered by people with outstanding experience, knowledge and empathy.

We aim to exceed our patients' expectations every time; in our hospitals you will find not only state of the art operating theatres and diagnostic equipment, but also relaxing interiors, soft music, fine organic, locally sourced food and stress free parking.

Facilities at CircleBath

CircleBath has 30 hospital bedrooms, all en-suite and 22 day case beds finished to a superior 5 star hotel standard with the most up to date technology. All the rooms offer comfort and privacy as we believe a calming environment helps with the healing process. Building a new hospital provided us with a great opportunity to design high-tech operating theatres. Our four operating theatres, endoscopy suite, audiology suite and dedicated physiotherapy suite are fitted with the latest digital technology and provide the platform for our clinicians to carry out daycare and in-patient procedures. We have an advanced digital X-ray, MRI and Dexa scanner. Our dedicated Day Care Unit carries out a wide variety of minor surgery and other clinical procedures, minimising your patient's time in hospital.

For more information contact CircleBath on 0808 188 1888 (freephone answered locally)

Largest Partnership of Clinicians

Circle is a social enterprise that forms the largest partnership of healthcare professionals in Europe - over 2500. Circle is co-founded, co-run and co-owned by its clinicians. Because the consultants and healthcare professionals who work for Circle own the facilities they work in, they are empowered to put patients first in everything that they do.

Backed with a formal structure and managerial support, every department is led by an experienced clinician, as happens in the best run GP practices. Everyone who works in our healthcare facilities is a partner; our nurses, our hospitality team, our clinical leaders and our managers. This ownership combined with our philosophy empowers all our staff to be committed to helping each and every patient, and to take personal responsibility at all times: dedicated to doing what's right for the patients, every time.

Choosing a Consultant

CircleBath has over 120 leading consultants covering treatments from Hernia Surgery to Hip Replacement and General Surgery to Gastroenterology, working as partners.

This referrer's guide provides a list of all our consultant partners, listed by main speciality area. More detailed information about our consultants, including special interests and interventional procedures, can be found on our website www.circlebath.com.

Referral Criteria

CircleBath welcomes all requests for consultation as most patients can be treated, except where full ITU facilities are required on site. If you are unsure about the suitability of your patient to undergo surgery, please call our referral line on 0808 188 1888 (answered locally). The following categories of patients are currently unsuitable to be referred to CircleBath:

- Under 3 years of age
- Clinical emergencies

Generally speaking, for surgical patients we follow the ASA classification of anaesthetic risk:

- ASA Grade 1: a normal healthy patient
- ASA Grade 2: a patient with mild systemic disease
- ASA Grade 3: a patient with severe systemic disease, and functional limitation

A rule of thumb is that patients who can climb two flights of stairs without shortness of breath or chest pain are classified as ASA 1, or ASA 2 if they have co-existing mild systemic disease. We will undertake surgery on a significant proportion of those patients who are ASA 3, but unless they are having minor surgery or procedures under local anaesthetic, they will need pre-assessment by one of our anaesthetists.

Anaesthetic Pre-assessment

Once a patient has been listed by the surgeon as requiring an operation, he or she is helped by one of our clinical staff to fill in our health screening questionnaire (HSQ). This is then reviewed by our pre-assessment nurse, and the patient may be called for blood tests, ECG or CXR following our anaesthetic protocol. Patients found to have no major problems on both the tests and HSQ go ahead for surgery. HSQ or tests revealing significant health problems are reviewed by an anaesthetist and either passed fit, or called for formal anaesthetic pre-assessment. Following this they are either passed fit, or arrangements made for the surgery to be undertaken at the RUH, or postponed until further medical management is carried out (e.g. cardiology/Echo/PFTs etc) or cancelled because the risks outweigh the benefits. If in any doubt, please contact 0808 188 1888 to arrange an anaesthetic pre-assessment. Detailed exclusion criteria are listed inside the back cover.

Useful information:

- In the unlikely event of transfer being necessary to an Acute Trust, your patient will usually be looked after by the same consultants, thereby ensuring continuity of care.
- We make it easier for GPs to get in touch with an individual consultant about any patient known to that consultant (through our referral line on 0808 188 1888 or the consultant's secretary).
- Our efficient appointments process will often enable your patient to have their consultation, diagnostic tests and pre-operative assessment on the same day, reducing the number of hospital visits.
- We are proud of our zero incident track record on MRSA and C.difficile.

Exclusion criteria guidelines for surgery/anaesthesia

- Patient BMI greater than 40
- Patient under the age of 3 years
- MI / CVA / Recurrent TIA within the last 6 months
- Severe COPD / Asthma / Bronchiectasis
- Diagnosed Myelodysplasia / Haemophilia / Thrombocytopenia
- Any patient with an American Society of Anaesthesiologists (ASA) score of 3 (who is unstable)
- A patient who has a current and significantly unstable psychiatric disorder

Jonathan Boulton, Clinical Chairman

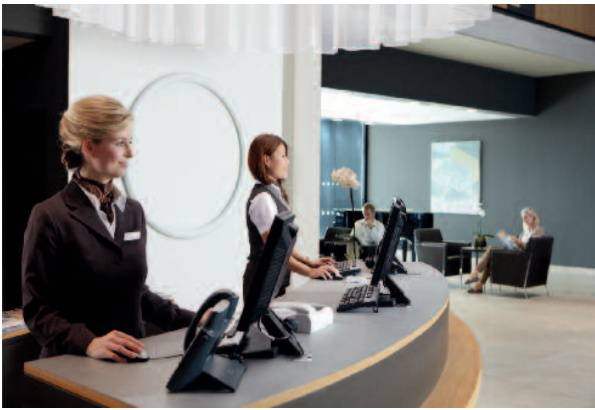

How to refer your patient

By telephone 0808 188 1888
 (Freephone answered locally)
 or 01761 422288
 Please send a letter within 24 hours.

By fax 01761 422223

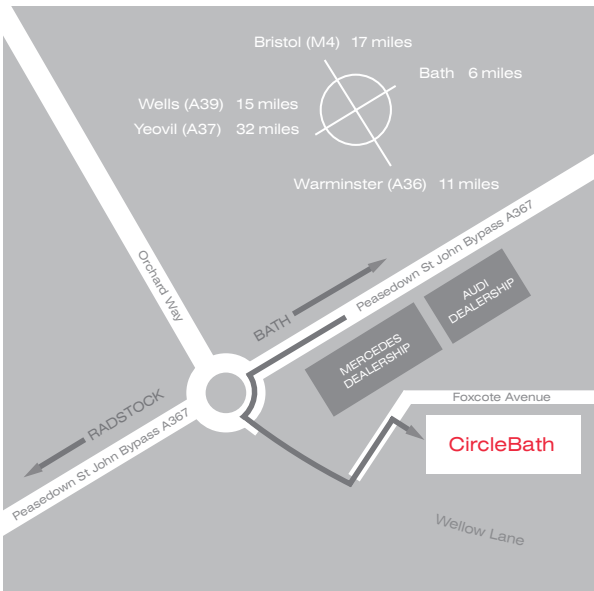

By email enquiries@circlebath.co.uk
 (not suitable for sensitive
 medical information)

By post Referral Service
 CircleBath
 Peasedown St John
 Bath BA2 8SQ

Come and meet us

GPs are always welcome to visit the hospital, meet our consultants and experience the first-class service given to our patients. Please call Victoria Adams on 01761 422210.

How to find us

CircleBath is 6 miles south of Bath city centre. Travelling from Bath, head south west on the A367 bypassing Peasedown St John, passing Audi and Mercedes-Benz dealerships on your left. At the roundabout take the first exit into Wellow Lane. Take the first left into Foxcote Avenue and CircleBath is located on your right.

If using SatNav please use the postcode BA2 8SF.

A hospital run as a partnership, where everyone who works at Circle is a co-owner in the business, so they are able to make decisions based on patient needs.

CircleBath, Foxcote Avenue, Peasedown St John, Bath BA2 8SQ
