

Nottingham NHS Treatment Centre

## Welcome to the Nottingham NHS Treatment Centre

The Nottingham NHS Treatment Centre is led by Circle on behalf of the NHS, meaning your treatment is free of charge. We have over 150 experienced NHS Consultants who are leaders in their specialist fields working at our Treatment Centre. When it comes to personal care and attention you'll find our friendly staff want to make your visit as comfortable and relaxed as possible on your road to recovery.

Circle is a social enterprise that forms the largest partnership of healthcare professionals in Europe. Our partnership model means our patients always come first and we are committed to providing you with the best quality treatment and care.

99.4% of patients treated at our Treatment Centre recommend us to family and friends.

## Best patient experience

Our first priority is giving you the treatment and care you need in a safe and timely way. However we want to go the extra mile to give you a great experience that ensures your health needs are accommodated and you are soon on your way to a full recovery. We offer one-stop clinics for many of our treatments, so you can often have your diagnostic tests on the same day as your initial Consultant appointment. If you require surgery we will carry out your pre-assessment on the same day and you will leave with a date for your surgery.

We are open at convenient times every weekday and often run our operating theatres on Saturdays, meaning you will experience short waiting times for outpatient appointments and faster access to surgery.

We know our patients are concerned by what they read about healthcare associated infections, like MRSA, which is why we take infection control extremely seriously. We are very proud that in the last 12 months we have had zero cases of healthcare acquired infections.

Our Nottingham NHS Treatment Centre is conveniently located and well-served by bus and road connections. There is ample parking under the Treatment Centre and parking is free for disabled patients. Our Treatment Centre café serves locally sourced food and drinks, and we offer free WiFi. We also have an on-site pharmacy.

Most of all we take the time to give you individual care and attention you deserve. You'll always experience a warm welcome and a calming environment to have your treatment in.

## State-of-the-art facilities

Our Nottingham NHS Treatment Centre is purpose-designed and equipped with the latest technology. In addition to our five operating theatres, three skin-surgery theatres and Endoscopy suite, we also have on-site MRI and CT scanners, X-Ray and Ultrasound.

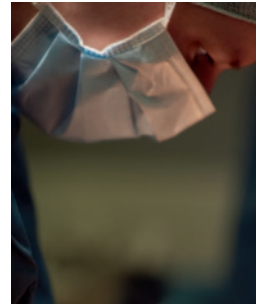

As the largest NHS day-case hospital in Europe we offer a number of specialist services including MOHS (the latest surgical techniques for removing cancerous skin lesions), light and Photodynamic therapy (for skin treatments) and a Bowel Screening service as well as other specialist treatments that are not generally available at all NHS facilities.

## Clinical excellence

We are committed to providing you with the highest quality clinical care, resulting in the best possible outcome from your treatment.

Our Nottingham NHS Treatment Centre is led and managed by Doctors and Nurses and our Circle Credo commits us to being 'above all else the agents of our patients'. So all decisions at our Nottingham NHS Treatment Centre are based on what's best for you, our patients.

Our treatments

At the Nottingham NHS Treatment Centre we offer a wide range of treatments and services which we are adding to all the time. We've included a list of our specialities, so please give us a call if you need more details.
